

# CONFLICT MANAGEMENT SEMINAR

Conflict is everywhere! The reality is life is getting more conflicted not less conflicted. Most people view conflict as evil, wrong, or simply something they are not prepared to deal with. The truth is how we view conflict will determine how we will manage conflict. In other words if we see that conflict is bad then we will avoid it, fight against it or simply put up with it. Conflict doesn't have to control our lives! Instead we can learn to control conflict. Did you know that conflict is in every story of the bible? Jesus even said that through many sufferings we will enter the kingdom of God. Through this powerful seminar you can now learn how to manage conflict in a biblical way.

Brad Kuechler has been working in conflicted areas both overseas as well as locally for over a decade and has helped both churches and people manage difficult conflict situations. Brad Kuechler has a 5 fold ministry and has developed conflict teams to help establish health in their local church. He is a church planter, revivalist, prophetic speaker, and an anointed teacher. Brad has his Masters in Church Leadership and Biblical Studies and has a unique and humorous way of delivering the word of God. This seminar is one of the most important and needed teachings for every church and individual. Bring your ministry team and learn how to manage conflict and watch conflict drop by 50%+ in your church!
